

Animal Chiropractic Licensing

Because the laws governing the practice of animal chiropractic vary in each state and province, we recommend that students contact the states and/or provinces in which they wish to practice for details on animal chiropractic licensure or registration. Please be aware that both veterinary and chiropractic laws must be consulted by both veterinarians and chiropractors, as well as other laws in some states and provinces that govern general business practice and advertising. Other additional Rules and Regulations can be obtained by contacting each state or provincial board of chiropractic and veterinary examiners.

In order to assist you, we offer the following list of links to many of the laws you will need to examine.
